

# Please **DO NOT** Flush

SANITARY WIPES

FEMININE HYGIENE PRODUCTS

MEDICATIONS

TRASH

METALS & PLASTIC

FATS, OILS, & GREASE

CHEMICALS

PAPER PRODUCTS, EVEN IF LABELED AS "FLUSHABLE"

**TOILET PAPER, HUMAN WASTE, AND WATER ARE THE  
ONLY MATERIALS THAT SHOULD BE FLUSHED.**

Flushing items that are not meant to be flushed can lead to problems in the sewer system, wastewater treatment facility, and the environment.

Attempting to flush anything else can lead to expensive and wasteful blockages. Even products marketed as "flushable" can wind up clogging pipes- when in doubt, throw it out.
